

TO THE PURSUIT OF SCIENTIFIC EXCELLENCE IN SKINCAREE

III. RESULTS YOU CAN TRUST

- 100% of our formulas undergoes clinical and consumer test.
- Dermatologically supervised.
- All our products go through 7 instrumental tests.
- Carried out by independent dermatological lab.

IV. CELLCOSMET SUSTAINABLE PRACTICES

- We actively seek environmentally friendly alternatives in our product development process, ensuring that our formulations minimize environmental impact while delivering optimal results.
- Eco Certified product development processes.
- Recyclable and recycled packaging.
- Certified ISO 14001 (Environmental Management Systems).

THE SCIENCE OF COSMETICS MADE IN SWITZERLAND

BEAUTY PRESCRIPTION

cellcosmet
SWITZERLAND

“THE SCIENCE OF COSMETICS” REFLECTS OUR UNWAVERING DEDICATION

I. HERITAGE OF INNOVATION

- Cellcosmet is a pioneer for 40 years in the Swiss skincaree industry, consistently delivering advanced formulations rooted in scientific research.
- Our founder, Mr. Roland Pfister, envisioned creating products of the highest quality, from ingredient conception to formulation technique and production capability.
- Our focus is on excellence driven by performance, efficacy and safety.

II. SCIENCE-DRIVEN EXCELLENCE

Our Signature ingredients:

- CytoPep™ a signature blend of peptides and skin proteins, is biotechnologically produced under Swissmedic standards and is found in all our cellular creams and serums.
- Postbiotics Complex, made from marine-origin ferments, to enhance skin radiance, firmness and protection against blue light, while reducing visible signs of aging. The formulas are designed to maintain a healthy skin microbiota for an optimal skin ecosystem.
- At least 90% of our ingredients are sourced from natural origins, making our formulations free from silicones, parabens, volatile alcohols, and microplastics, ensuring purity and safety for your skin.

Our manufacturing standards are comparable to the Swiss Pharmaceutical industry:

- Each new Cellcosmet formulation takes an average of five years of intensive R&D, testing, and trials to ensure it meets our exacting standards of innovation and efficacy.
- Cellcontrol™: through our proprietary CellControl™ we protect protein and peptide native structure and biological activity, providing unparalleled benefits for skin regeneration and vitality.
- Certified ISO 22716 - Cosmetics Fabrication Best Practices & ISO 9001-Quality Management.
- Swissscos member, ensuring certified Swiss-made origin.

STEP I: PREPARATORY

Daily ☀️🌙

Gentle Cream Cleanser

- Removes make-up
- Cleanses
- Softens
